DETAILED ACTION

Allowable Subject Matter

1. Claims 1-25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

As to claim 1, Examiner agrees with Applicants that Snyder does not suggest, teach, or disclose the use of a specific value of the Block Count field or the Stride field to control mapping.

As to claim 4, Examiner agrees with Applicants that Snyder does not suggest, teach, or disclose: steps of "responsive to the decoding, determining whether a value of a stride field of the software prefetch instruction is within a set of predetermined values for each field within the instruction if Block Count field of the software prefetch instruction is not 1; and if fields of the Stride field or Block Count field of the software prefetch instruction are within the set of predetermined values, mapping the decoded software prefetch instruction to a hardware prefetch mechanism.

As to claim 13, Examiner agrees with Applicants that Snyder does not suggest, teach, or disclose: means for mapping the

decoded software prefetch instruction to a hardware prefetch mechanism if the Block Count field parameter is 1 or if the values of the Stride field parameters are within the set of predetermined comparison values;

Regarding claims 7, 16, and 22, as set forth in the previous Office Action, Snyder'215, the closest reference, and the other prior art do not teach or fairly suggest: in steps c-h of claim 7, using the specific value of Block Count field (such as 1) and Stride field (such as represent the number of 128 bytes) to control the mapping and not mapping between the software prefetch instruction and the hardware prefetch mechanism. Claim 16 steps c-i and claim 22 steps c-h recite the corresponding limitations as set forth in claim 7. The combination of the above limitations and all of the other limitations in the respective independent claim is not obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
